

Chemistry Notebook Check on Chapters 3 and 2

Name:

REMEMBER: This rubric only shows **SOME** of the things that should be in your notebook. **EVERY** single paper should be included in your notebook, regardless of whether or not it appears on this rubric. **ALSO**, "NOT COMPLETE" means that if you did not finish one little part of the assignment...

Date:

Period:

Item	0	1	2	3	4	Multiplier	Sub-Total	
Table of Contents	Unacceptable or Not present <input type="checkbox"/>	Contains flaws or not enough detail <input type="checkbox"/>	Nicely organized, neat, detailed descriptions of entries, it's a continuation of the previous T of C <input type="checkbox"/>			x 2	4	
Following Notebook Format Directions	Did not follow one little part of the directions, or you're not including EVERY SINGLE paper you've been given in these two chapters! <input type="checkbox"/>	Followed ALL Directions (You actually READ the notebook guidelines--thanks!) <input type="checkbox"/>				x 3	3	
General Appearance	You threw this together at 2 am this morning, didn't you? <input type="checkbox"/>	Nicely done, but you could improve in one or more areas. Your notebook seems thinner than your classmates'. <input type="checkbox"/>	You should show this to your mom. You've put together a portfolio that adequately displays your work in these two units!! <input type="checkbox"/>			x 2	4	
Chapter 3--Describing Matter and Chemical Changes								
Homework from Study Guide on Chapter 3	Not present and/or complete <input type="checkbox"/>	Incorrect answers, methods, or presentation <input type="checkbox"/>	Minor mistakes, or problems with method or appearance. <input type="checkbox"/>	Resource quality. <input type="checkbox"/>		x 1	3	
Lab Activity Documentation on Chemical and Physical Changes (Teacher Demos)	Not present <input type="checkbox"/>	Present but not complete <input type="checkbox"/>	Major problems communicating concepts; you've left out significant portions of this lab and analysis <input type="checkbox"/>	One or two minor flaws, but your lab shows critical thinking and understanding. <input type="checkbox"/>	Well-written and documented. You have clear, descriptive data, and you show evidence of critical thinking and understanding. <input type="checkbox"/>	x 2	8	
Notes on Separation Techniques	Not present <input type="checkbox"/>	Present but not complete <input type="checkbox"/>	Major problems communicating concepts; you've left out significant portions of this lab and analysis <input type="checkbox"/>	One or two minor flaws, but your lab shows critical thinking and understanding. <input type="checkbox"/>	Well-written and documented. You have clear, descriptive data, and you show evidence of critical thinking and understanding. <input type="checkbox"/>	x1	4	
Lab: Law of Conservation of Mass (Bags of Gases)	Put this lab in your portfolio's table of contents, then turn it in separately to me. Put it back after it's graded.							
Evidence you were in class, took notes, participated, and did the work for this unit	Deficient--too much is missing to meet the minimum requirement for a portfolio. <input type="checkbox"/>	You haven't included all of the work/handouts, but the majority of it is here. <input type="checkbox"/>	You're doing your job, but you could improve in documenting your learning <input type="checkbox"/>	Your supplementary work in this unit is well documented. You've included handouts, notes, and there's real evidence here that you've been learning. <input type="checkbox"/>		x 2	6	
Chapter 2 Measurement and Math for Chemistry								
Chapter 2 Practice Problems	Not present and/or complete <input type="checkbox"/>	Incorrect answers, methods, or presentation <input type="checkbox"/>	Minor mistakes, or problems with method or appearance. <input type="checkbox"/>	Resource quality. <input type="checkbox"/>		x 1	3	
Notes on Measurement and Math for Chemistry	Not present <input type="checkbox"/>	Present but not complete <input type="checkbox"/>	Major problems communicating concepts; you've left out significant portions of this lab and analysis <input type="checkbox"/>	One or two minor flaws, but your lab shows critical thinking and understanding. <input type="checkbox"/>	Well-written and documented. You have clear, descriptive data, and you show evidence of critical thinking and understanding. <input type="checkbox"/>	x1	4	
Lab on Measurement	Put this lab in your portfolio's table of contents, then turn it in separately to me. Put it back after it's graded.							
Evidence you were in class, took notes, participated, and did the work for this unit	Deficient--too much is missing to meet the minimum requirement for a portfolio. <input type="checkbox"/>	You haven't included all of the work/handouts, but the majority of it is here. <input type="checkbox"/>	You're doing your job, but you could improve in documenting your learning <input type="checkbox"/>	Your supplementary work in this unit is well documented. You've included handouts, notes, and there's real evidence here that you've been learning. <input type="checkbox"/>		x 2	6	
						Total	45	

Self-Evaluation Score:

You must record your score here before you can turn this in for evaluation.

45 Points Possible (Grading scale determined from 16 points + 28 points for completion)

Scale:

- A 43.3
- B 41.6
- C 39.9
- D 38.2
