

Periodic Table Group Project on the Elements

Guidelines: You will work individually or with a group to find out interesting/useful information about an element(s). If you work in a group, your group will report on the same number of elements as there are people in your group.

Your finished product must be 8.5 x 11. You can complete the project by hand or digitally.

Rubric for Evaluation:

1	2	3	4
Your project is substandard compared to your peers' projects.	Your project meets the minimum requirements of this assignment.	Your project went above and beyond in completing the minimum requirements.	Your project involved more than completing the requirements and there is evidence that you learned a lot more than just some basic info.
